The screenshot shows the Science Ventures User Management interface. At the top, there are links for Home, Webmail, Admin, and User Management. Below that, a breadcrumb navigation shows the path: Science Ventures UK → University of Bristol → Metrocom → Star 01 → Initial Disclosure Form. The main area has sections for "Currently Authorised Users" (listing bsharkin, otherdond, pattourny, user01, user02) and "Message Recipients" (an empty list). A note says "Double click any of these users to add them to the message recipients below". A "Subject" field contains "Welcome" and a "Comment" field contains the message: "Hey everybody welcome to our new project feel free to ask any questions here that are specific to this document as only people who have access to this document can view these messages and for added security you can send messages that are only displayed to certain users." A "Post" button is at the bottom right.

At the bottom left, it says "USER:dharkin".

[Test By pottoury to Authorised Users on 27/06/03 14:28]
This is my first time using this and just testing here.
[Reply]

[That's ok By bharkin to pottoury on 27/06/03 14:30]
Don't worry about it we all had to learn once if you double click the name of the user on the post page then you can send the message just to them.

[Ok now we need to get down to some work By bharkin to Those 5 users on 27/06/03 14:51]
I need you guys to keep an eye on Davey McDavedave in adding him to this document but his contributions may be useless so make sure and check everything he submits.

The screenshot shows a web-based administration interface for 'Science Ventures'. At the top left is the 'Science Ventures' logo with a trademark symbol. The top right features a 'Logout' link. The main navigation menu includes 'Home', 'Webmail', 'Admin', 'User Management', and several other links like 'Users', 'Clients', 'Projects', 'Shares', 'Document Classes', and 'Documents'. The central content area is titled 'Create or Edit User'. It contains a 'Create User' form with fields for 'Username' (a text input field), 'Password' (a text input field), and 'Password confirm' (a text input field). Below these fields is a 'Create' button. Further down, there's a 'Edit' button followed by a dropdown menu labeled 'Edit [pettoum]' and 'Permissions for Projects'. A note below the dropdown states 'Changes will take effect when the user next logs in'. At the bottom left of the page, there is a status bar with the text 'USER:bharkin'.

DECLARATION OF NON-ESTABLISHMENT OF INTERNATIONAL SEARCH REPORT

(PCT Article 17(2)(a), Rules 13ter.1(c) and Rule 39)

Applicant's or agent's file reference P13645PC/RSN/BDW	IMPORTANT DECLARATION	Date of mailing(day/month/year) 01/12/2004
International application No. PCT/GB2004/002875	International filing date(day/month/year) 01/07/2004	(Earliest) Priority date(day/month/year) 03/07/2003
International Patent Classification (IPC) or both national classification and IPC G06F17/60		
Applicant HARKIN, William James		

This International Searching Authority hereby declares, according to Article 17(2)(a), that no international search report will be established on the international application for the reasons indicated below

1. The subject matter of the international application relates to:
 - a. scientific theories.
 - b. mathematical theories
 - c. plant varieties.
 - d. animal varieties.
 - e. essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes.
 - f. schemes, rules or methods of doing business.
 - g. schemes, rules or methods of performing purely mental acts.
 - h. schemes, rules or methods of playing games.
 - i. methods for treatment of the human body by surgery or therapy.
 - j. methods for treatment of the animal body by surgery or therapy.
 - k. diagnostic methods practised on the human or animal body.
 - l. mere presentations of information.
 - m. computer programs for which this International Searching Authority is not equipped to search prior art.
2. The failure of the following parts of the international application to comply with prescribed requirements prevents a meaningful search from being carried out:

the description the claims the drawings
3. The failure of the nucleotide and/or amino acid sequence listing to comply with the standard provided for in Annex C of the Administrative Instructions prevents a meaningful search from being carried out:

the written form has not been furnished or does not comply with the standard.
 the computer readable form has not been furnished or does not comply with the standard.
4. The failure of the tables related to the nucleotide and/or amino acid sequence listing to comply with the technical requirements provided for in Annex C-bis of the Administrative Instructions prevents a meaningful search from being carried out:

the written form has not been furnished.
 the computer readable form has not been furnished or does not comply with the technical requirements.
5. Further comments:

FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 203

The claims relate to subject matter for which no search is required according to Rule 39 PCT. Given that the claims are formulated in terms of such subject matter or merely specify commonplace features relating to its technological implementation, the search examiner could not establish any technical problem which might potentially have required an inventive step to overcome. Hence it was not possible to carry out a meaningful search into the state of the art (Art. 17(2)(a)(i) and (ii) PCT; see Guidelines Part B Chapter VIII, 1-3).

The applicant's attention is drawn to the fact that claims relating to inventions in respect of which no international search report has been established need not be the subject of an international preliminary examination (Rule 66.1(e) PCT). The applicant is advised that the EPO policy when acting as an International Preliminary Examining Authority is normally not to carry out a preliminary examination on matter which has not been searched. This is the case irrespective of whether or not the claims are amended following receipt of the search report or during any Chapter II procedure. If the application proceeds into the regional phase before the EPO, the applicant is reminded that a search may be carried out during examination before the EPO (see EPO Guideline C-VI, 8.5), should the problems which led to the Article 17(2) declaration be overcome.
